

Cryptographic Hash Workshop

October 31 – November 1, 2005

Georg Illies, BSI
georg.illies@bsi.bund.de

BIOGRAPHY: Georg Illies studied Mathematics and Physics at the University of Münster (Germany) and received a diploma and PhD, both in Number Theory. He was a Postdoc at the University of Aachen (GE) and at the IHES at Bures-sur-Yvette (F), Research Fellow at the University of Exeter (UK) and Assistant Lecturer at the University of Siegen (GE). Since 2003 he is working for the BSI (Federal Office for Information Security, GE). He edits the annual recommendations of the BSI with respect to suitable algorithms and parameters for qualified electronic signatures according to the German Signature Ordinance. He also contributed to the ETSI TS 102176 (ESI Algorithms and Parameters for Electronic Signatures).
